

WANAKA PRIMARY SCHOOL

Wanaka Primary School and Council are working together to reduce congestion and improve road safety at Pick up and Drop off times.

Use this map as a guide for children to walk to these “safe meet spots” after school (see route suggestions over page).

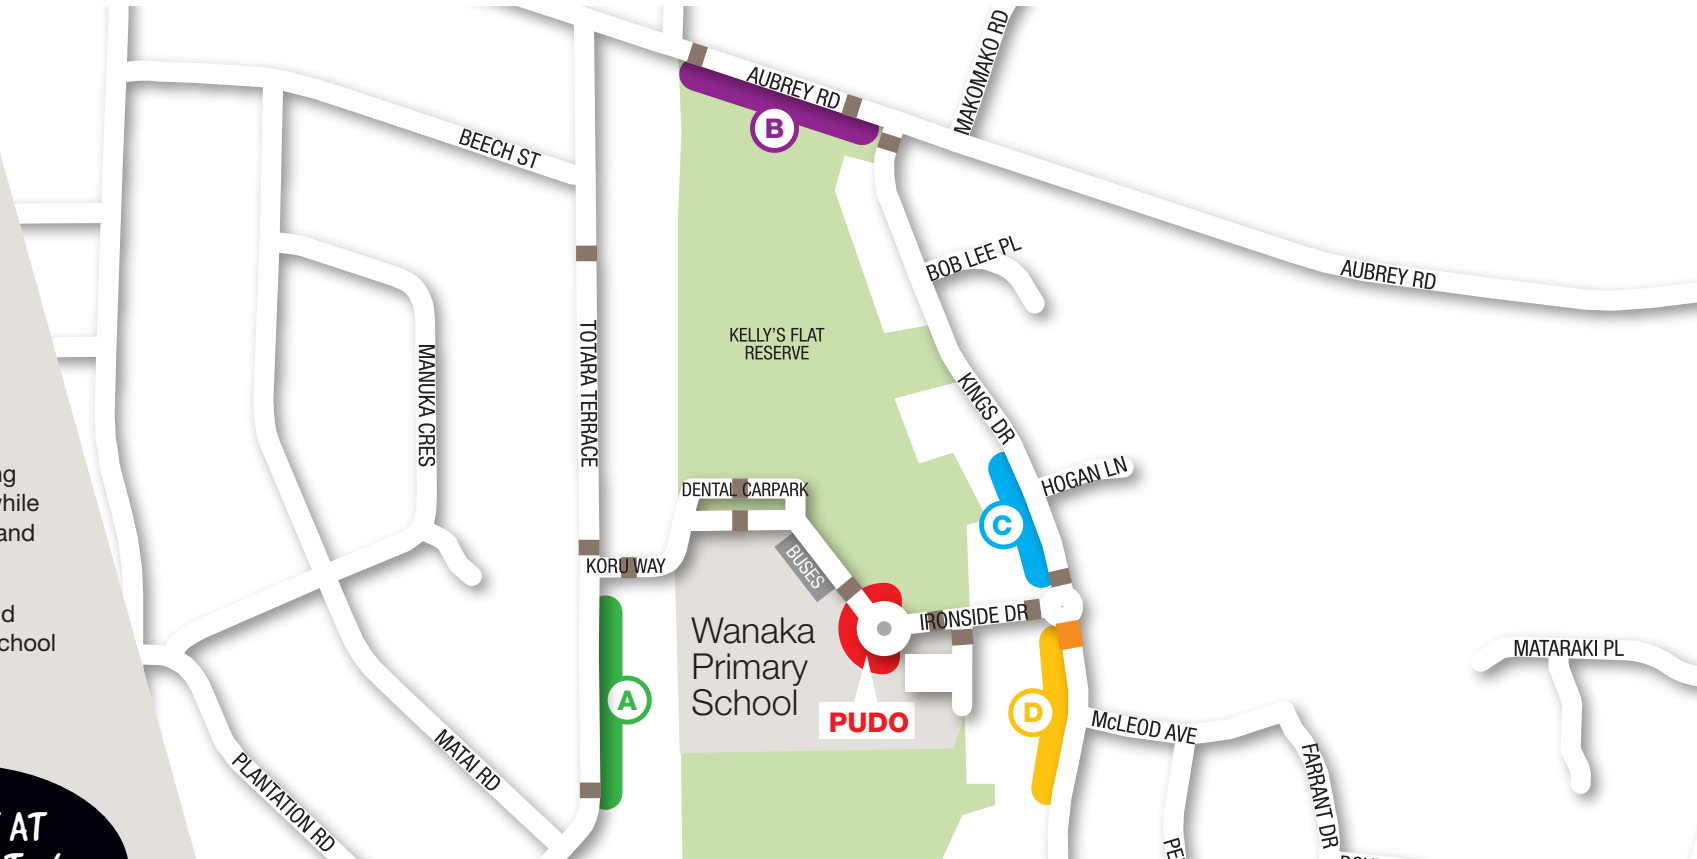

Please talk to your child about your new pick up arrangement and walk the route with them if possible.

Children love the independence of making the short walk themselves to meet you while parents will notice this can be a quicker and less stressful way to meet.

There are other ways to reduce stress and congestion at the school gate, visit the school website for more information.

Let's meet there
